

9600V Series Gas Furnace

The EnergyMiser™ brand 96% AFUE Two-Stage, Variable-Speed blower, Gas Furnaces feature our patented, heavy-duty, Heat-Miser™ stainless-steel heat exchanger and recuperative coil. The next-generation SecureStart™ silicon nitride hot surface ignition system increases reliability. These furnaces are completely assembled at the factory and run-tested for heating or combination heating/cooling applications. With a heavy-gauge, reinforced, wrap-around insulated steel cabinet and durable baked enamel finish, these units can be installed in a utility room, closet, alcove, basement or attic.

Limited Lifetime Replacement
Warranty on the entire unit if the Heat
Exchanger or Recuperative Coil Fails.
10 Year – Labor Warranty
10 Year – Parts Warranty**

** Limited to the original purchaser of the equipment

Patented, heavy-duty, Heat-Miser™ stainless-steel heat exchanger and recuperative coil for maximum efficiency

Energy-saving, reliable next-generation SecureStart™ silicon nitride hot surface ignition system

Auto-Comfort mode helps to enhance dehumidification and energy savings during the cooling months

Two-stage gas valve and super-efficient, quiet variable-speed blower motor, which consumes 1/3 of energy compared to standard motors

Quiet, two-speed induced draft blower assembly

Integrated furnace control with improved diagnostics

Low voltage terminal blocks

Multiple flame roll-out switches, blower door safety switch, outlet air-limit switch and pressure switch for proof of combustion air

40VA transformer for heating and air conditioning control service

Combination redundant two-stage gas valve and regulator

Top venting is standard; alternate flue/vent located on right side

Completely assembled, factory run-tested furnace for heating or combination heating/cooling application

Suitable for direct vent (two-pipe) or non-direct vent (one-pipe) applications

* Based on 60% Standard Pilot Furnaces

SECURESTART™
IGNITORS THAT LIGHT EVERY TIME. GUARANTEED
