

## 9500 Series Gas Furnace

The EnergyMiser™ brand 95% AFUE Series Two-Stage, Multi-Speed blower, Gas Furnaces feature our patented, heavy-duty, Heat-Miser™ stainless-steel heat exchanger and recuperative coil. The next-generation SecureStart™ silicon nitride hot surface ignition system increases reliability. These furnaces are completely assembled at the factory and run-tested for heating or combination heating/cooling applications. With a heavy-gauge, reinforced, wrap-around insulated steel cabinet and durable baked enamel finish, these units can be installed in a utility room, closet, alcove, basement or attic.

**Limited Lifetime Replacement\*\*  
Warranty on the entire unit if the  
Heat Exchanger or Recuperative  
Coil Fails.**

**1 Year – Labor Warranty  
10 Year – Parts Warranty**

\*\* Limited to the original purchaser of the equipment

- Patented, heavy-duty, Heat-Miser™ stainless-steel heat exchanger and recuperative coil for maximum efficiency
- Designed for multi-position installation— upflow, horizontal right or left; downflow, horizontal right or left
- Two-stage gas valve with new revolutionary convertible technology that allows installer to activate two-stage operation with dipswitch
- Energy-saving, reliable next-generation SecureStart™ silicon nitride hot surface ignition system
- Aluminized-steel inshot burners
- Energy-saving PSC, multi-speed, direct drive blower motor
- Quiet, corrosion-resistant induced draft blower assembly
- Integrated furnace control with improved diagnostics
- Low voltage terminal blocks
- Multiple flame roll-out switches, blower door safety switch, outlet air-limit switch and pressure switch for proof of combustion air
- 40VA transformer for heating and air conditioning control service
- Combination redundant gas valve and regulator
- Top venting is standard; alternate flue/vent located on right side
- Completely assembled, factory run-tested furnace for heating or combination heating/cooling application
- Suitable for direct vent (two-pipe) or non-direct vent (one-pipe) applications
- Heavy-gauge, reinforced, fully insulated steel cabinet with durable baked-enamel finish
- Attractive architectural gray paint finish
- Foil-face insulation-lined heat exchanger compartment
- Suitable for Hybrid installation
